Space Bar - one press = Tsheg (Two press continue = tsheg and space)

Tsheg Rules: *Tsheg is placed on the space-bar. Tsheg is also formed automatically when shad is typed after nga (༎) i.e. ༎། without type tsege in between. Tsheg is removing after ga when type twice space bar ie. ༎།*

Composition of conjunc and syllable: *Halent (a) ༎ is typed between to two character which will form a conjunc. i.e. 1) ka halent yatag = kya (ཀ ༎ ར = ཀྱ) 2) h k' = hka' (བ ཀ ར' = བཀའ') 3) h s halent k halent y o d = hskyod (བ ས ༎ ཀ ༎ ར འ ར' = བསྐྱོད')*
